The Arab Republic of Egypt Egyptian Electric Utility and Consumer Protection Regulatory Agency (Egypt ERA)

Announcement of the opening of the first phase of bilateral electricity contracting between the private sector “P2P”

EgyptERA is accepting applications from interested parties to register projects from 1/6/2024 until 31/8/2024

Parties wishing to participate in the bilateral agreements “P2P” may apply for eligibility provided that they conform with the following conditions:

1- Conformity with Circular No. (2) of 2024 and all legislation in force in the Arab Republic of Egypt.

2- The first phase will cover a total of 500MW of new renewable electricity generation projects (solar and wind), comprising five separate 100MW projects.

3- The registration of consumption sites is limited to new sites that have not signed any electricity supply contracts with the Egyptian Electricity Transmission Company, the New and Renewable Energy Authority, the Egyptian Electricity Holding Company, or any authorized electricity distribution company.

4- Payment of an application fee of 50,000 EGP.

For details, please see Circular No. (2) of 2024 shown in the following QR code.

For those interested, please register at the following link:

All documents and special contracts are available on the EgyptEra website shown in the following QRcode
